

A large, modular metal storage cabinet, likely for a laboratory or industrial setting. It features a long, low profile with a series of compartments. The top section consists of a long shelf with numerous small, square compartments. Below this, the cabinet is divided into several vertical sections. Each section contains a set of drawers with black handles. The drawers are arranged in a staggered fashion, with some sections having two drawers and others having three. The bottom of the cabinet is a solid, light-colored panel. The overall design is functional and modular, allowing for customization of storage space.
